*

The delivery and installation price will vary depending on location.

**

The 110+ bottom oven temperature is non-adjustable, when on it will be approximately 120°C.

Warming ovens do not have heating elements and take their heat from adjacent ovens.

Running costs based on using Eco overnight (2100-0600), a 3 hour top oven delay and 4 hour bottom oven delay

Optional Chrome Pack: £200 including VAT for 60 and 90 models, £250 including VAT for all larger models
